

BauscherHepp

Cutlery Guide

table culture at its best

Table culture is constantly in motion. It thrives in the feeling of the moment. For that perfect instant, when everything is exactly right. The expertise and dependability of Hepp, along with its dedication to research, design, development and production, is rooted in the ever-changing world of table culture.

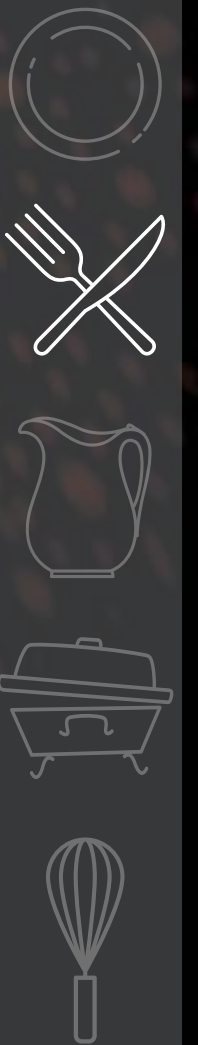

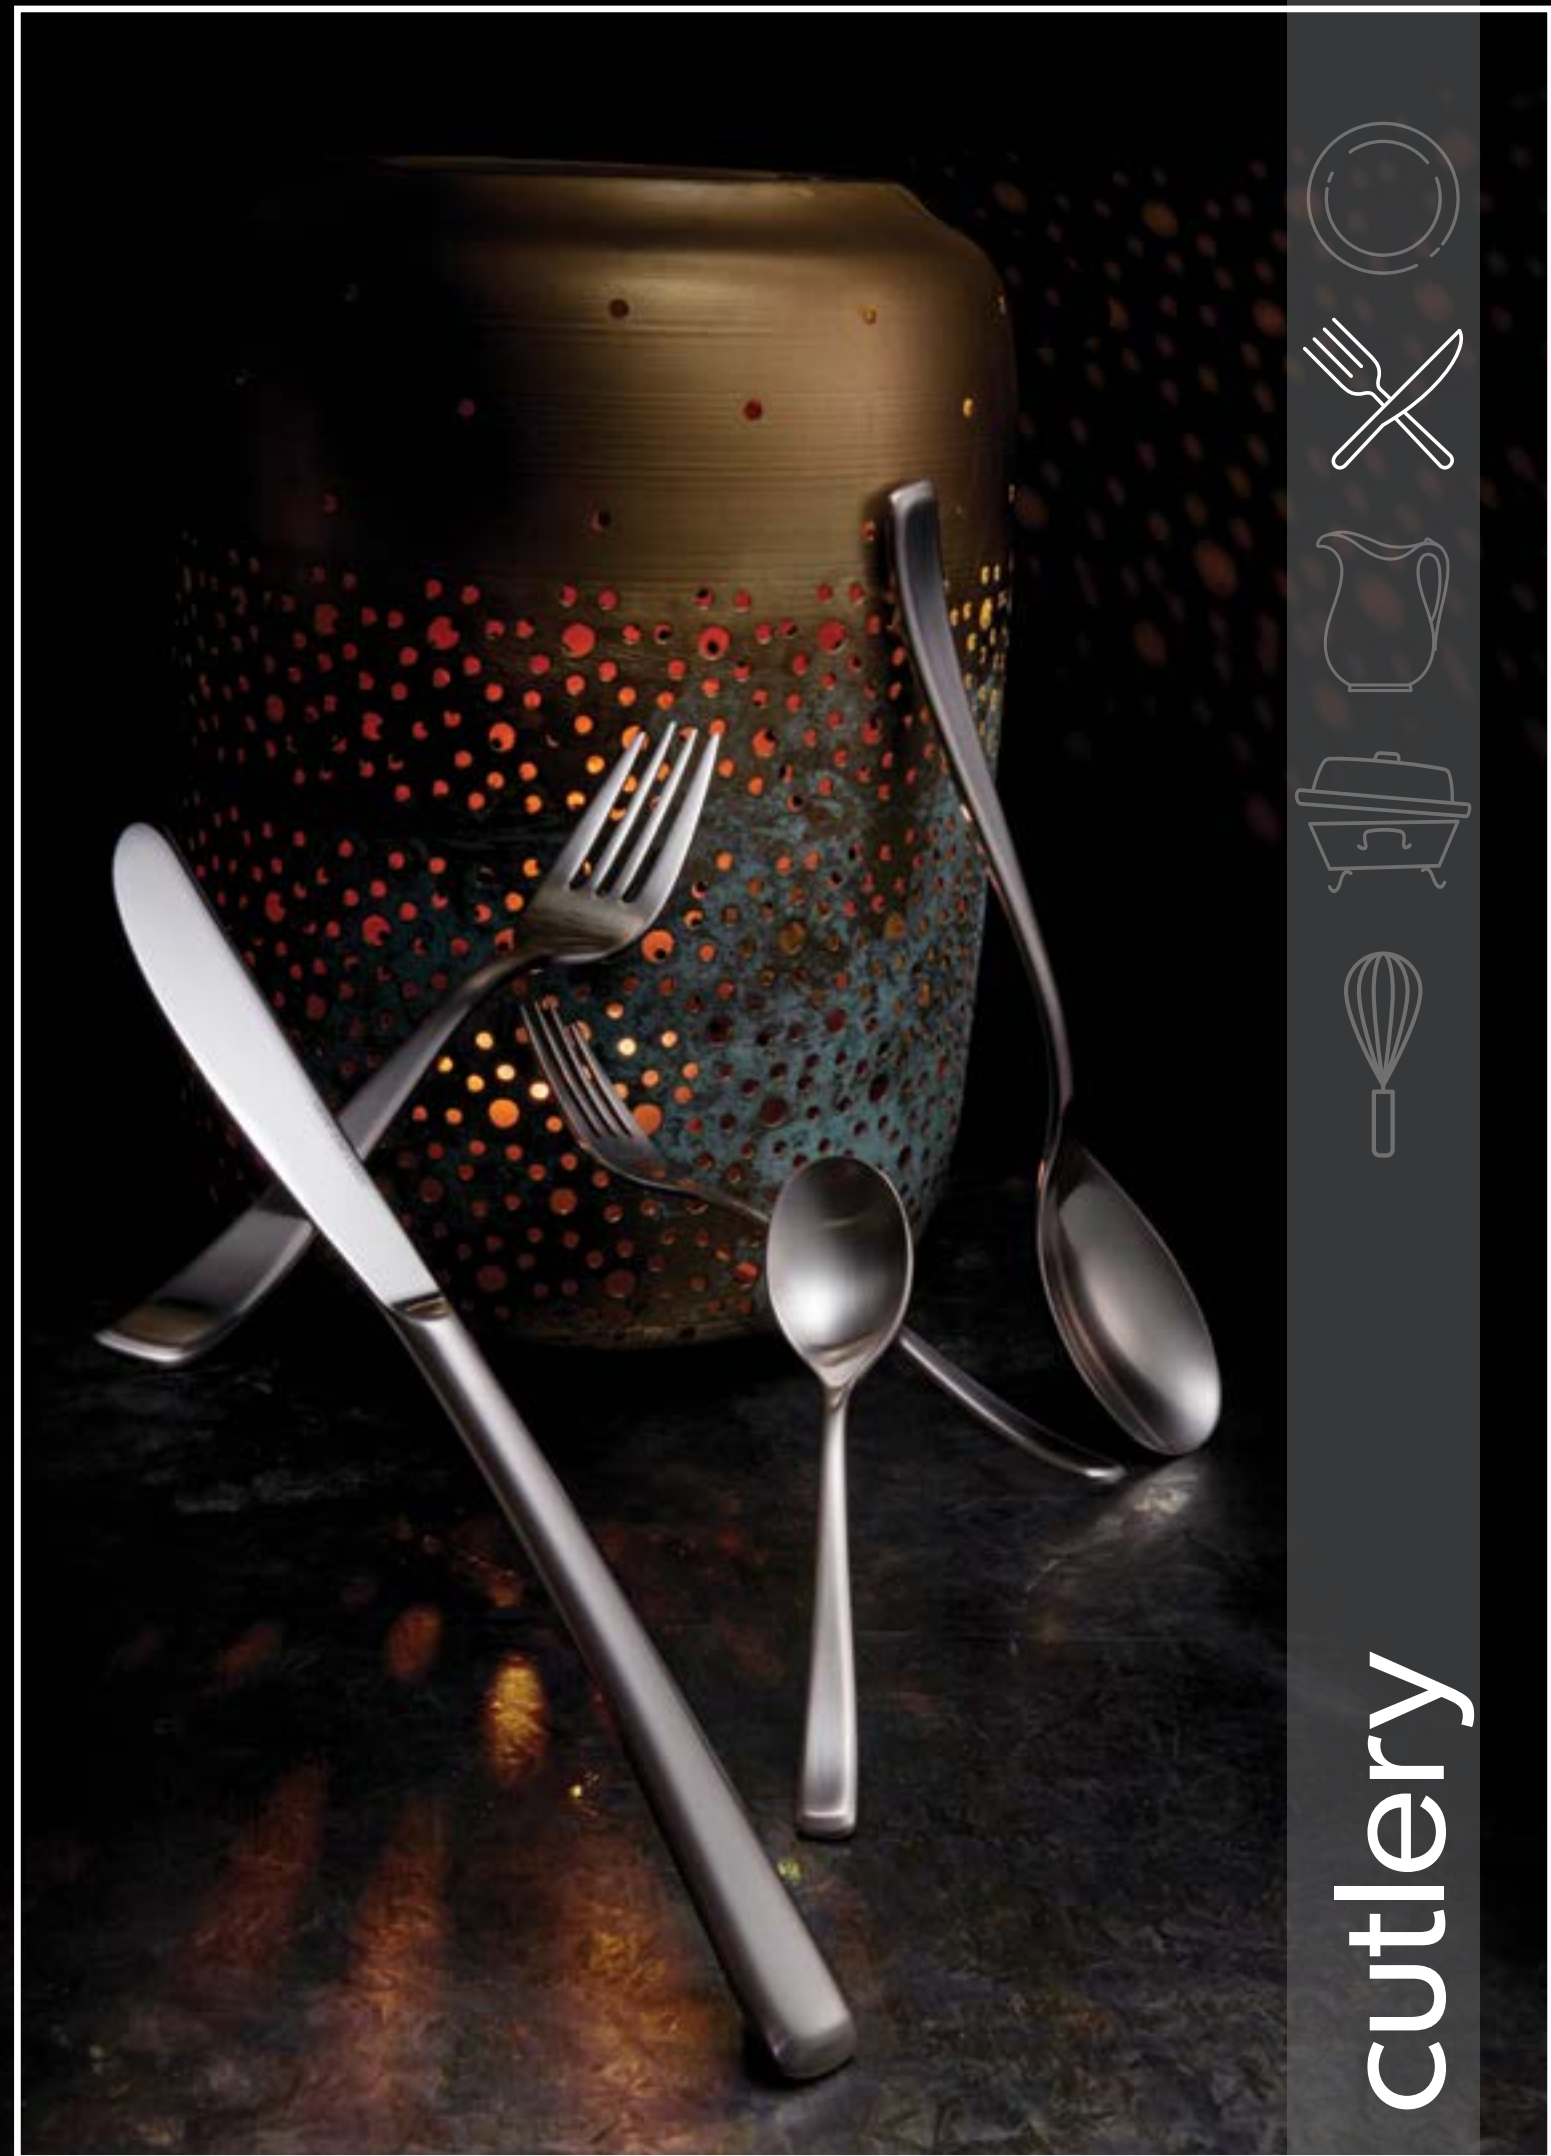

inventor & innovator

The **oldest specialized factory for cutlery and service equipment** for the hotel industry was founded in Germany by the Hepp brothers in 1863. Since then, Hepp has succeeded in not only developing hotel silver that is strong enough to withstand the gastronomy industry, but also in partnering with designers to create a finished product that is as beautiful as it is functional.

Cutlery is more than a simple table utensil. It is the visual and tactile expression of culture and lifestyle. Which is why Hepp offers a diverse product range with a wide choice of design and styles. From the curves and elegance of different flatware collections to the surface treatments that result in some of Hepp's special finishes, innovation is at the heart of Hepp's design concepts.

- Every piece fits well into your hand and has a well **balanced weight**
- The tines of the fork have been **finely sharpened** and are also **neatly finished** on the insides
- The bowls are absolutely **symmetrical**
- All edges have been **accurately finished**
- The knife blade **tapers evenly** from the bolster to the tip and from the back of the cutting edge
- The scalloped edge or serration - ensures a high and lasting sharpness: **slices and cuts; does not tear**

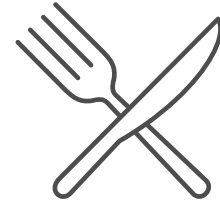

Sample Kits Available **3 Piece Includes:** table fork, table knife, coffee spoon
5 Piece Includes: table fork, table knife, coffee spoon, dessert fork, dessert spoon

cutlery

18/10

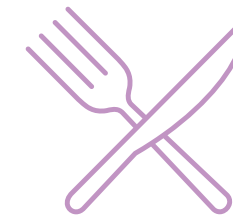

18/10 stainless steel will not tarnish, is **rustproof, acid-resistant, unbreakable**, easy to clean and therefore extremely **durable**. Since its inception, stainless steel has been considered a modern, **high quality** and durable material of **upscale dining** culture. Cutlery made from stainless steel has become the general standard.

stonewash

Each piece is **unique**. The stone-washing method gives the pieces of cutlery an impressive vintage feel. After the mechanical stone-washing treatment, no piece of cutlery is identical to another. Each unique piece has its own characteristics, ensuring a **distinctive** look, especially when combined with rustic or antique porcelain and glassware.

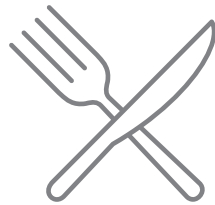

pearl

The glass bead blasting creates matte **satin nuances**. Small glass balls act on the cutlery or other stainless steel products at high speed and great pressure, creating a **soft glow** that comes into its own when combined with **elegant** table settings.

silverplate

Hepp is considered to be the **inventor** of hotel silver. A **seamless** production process has been developed over the past 150 years: a layer of silver is inseparably bonded with robust 18/10 stainless steel in an **electrolytic** bath. The result is an **elegant** appearance with a soft sheen and high reflectivity.

pvd

Stylishly different – stand out from the crowd with this elegant and **vibrantly colorful** surface coating and give your cutlery a remarkable note. With **four** stylish, unusual colour versions of copper bronze, gold, anthracite and pale gold your cutlery adds a **new stylish touch** to any table.

new

table culture at its best

Table culture is constantly in motion. It thrives in the feeling of the moment. For that perfect instant, when everything is exactly right. The **expertise** and **dependability** of WMF, along with its dedication to research, design, development and production, is rooted in the ever-changing world of table culture.

creating culinary experiences

It is of great importance to **inspire** your guests every day. An essential key to success is the laid table. It is the center of attention, for here is where you stage the menu for a **culinary experience**. Whether elegant, long-established, modern, or pure, WMF cutlery complements any concept.

Cutlery is more than a simple table utensil. It is the **visual** and **tactile** expression of culture and lifestyle. Since 1853 WMF has been creating flatware designed for your **individual style**, focusing on form-perfect functionality, precision, and lasting appearance. From the curves and elegance of various collections to the surface treatments that result in some of WMF's special finishes, a passion for tabletop is at the heart of WMF's design concepts.

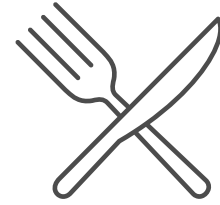

- Every piece fits well into your hand and has a **well balanced** weight
- The tines of the fork have been **finely sharpened** and are also **neatly finished** on the insides
- **The bowls are absolutely symmetrical**
- **All edges have been accurately finished**
- The knife blade **tapers evenly** from the bolster to the tip and from the back of the cutting edge
- The **scalloped edge or serration** - ensures a **high and lasting sharpness**: slices and cuts; does not tear.

Sample Kits Available **3 Piece Includes:** table fork, table knife, coffee spoon
5 Piece Includes: table fork, table knife, coffee spoon, dessert fork, dessert spoon

18/10

18/10 stainless steel will not tarnish, is **rustproof**, **acid-resistant**, **unbreakable**, easy to clean and therefore extremely **durable**. Since its inception, stainless steel has been considered a modern, **high quality** and durable material of **upscale dining** culture. Cutlery made from stainless steel has become the general standard.

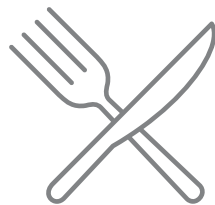

stonewash

Each piece is **unique**. The stone-washing method gives the pieces of cutlery an impressive vintage feel. After the mechanical stone-washing treatment, no piece of cutlery is identical to another. Each unique piece has its own characteristics, ensuring a **distinctive** look, especially when combined with rustic or antique porcelain and glassware.

silverplate

A **seamless** production process has been developed over the past 150 years: a layer of silver is inseparably bonded with robust 18/10 stainless steel in an **electrolytic** bath. The result is an **elegant** appearance with a soft sheen and high reflectivity.

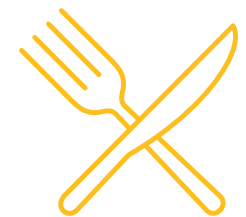

pearl

The glass bead blasting creates matte **satin nuances**. Small glass balls act on the cutlery or other stainless steel products at high speed and great pressure, creating a **soft glow** that comes into its own when combined with **elegant** table settings.

pvd

Stylishly different – stand out from the crowd with this elegant and **vibrantly colorful** surface coating and give your cutlery a remarkable note. With **four** stylish, unusual colour versions of copper bronze, gold, anthracite and pale gold your cutlery adds a **new stylish touch** to any table.
